Animals

TRACE NMN WATER contains more than 300 mg of NMN  
Helps replenish NAD+ that the body naturally loses due to aging  
Daily drinking can activate anti-aging and anti-aging factors!

# NMN WATER

## Nutritional Water for Pets

### Key Nutrients, All From Nature

NMN, as the precursor of NAD, enhances the vitality and health of pet cells.

### Keep Young and Rejuvenate

NMN can bring a new anti-aging experience to your pets, making them full of vitality.

### Scientific Certification, Health Protection

Studies have confirmed that NMN has a positive effect on improving blood sugar control and promoting neurological health in pets.

### Healthy source of natural water quality

High-quality water source from nature and injecting NMN into pure water  
Not only can it detoxify, it can also effectively improve immunity.

### Combined with exercise, the effect is better

Through the dual effects of moderate exercise and NMN nutrition, pets can be helped to maintain optimal health.

# The Secret of NMN

**Enhance  
Neurogenesis &  
Cognition**

**Increase  
Strength &  
Endurance**

**Strengthen  
Heart Functions**

**Boost Energy &  
Metabolism**

**Elevate  
NAD+ Level**

**Repair  
Cell & DNA**

**Regulate  
Weight**

**Anti-aging**

As we age, the NAD+ component in the body decreases, and the body's cells and metabolism slow down significantly. The renewal cycle also gradually decreases as the number of stem cells in the body gradually decreases and aging begins. The lower the NAD+ level, the less nutrients the cells receive, the more the cells begin to divide, the slower the DNA replication rate, etc., the more problems accumulate in the body, and the more prone to diseases such as cancer. NMN can supplement the necessary nutrients for the body, prevent the body from aging, and has the effect of rejuvenating the body.

**NMN intake =  
Activation of genetic longevity factors**

**UP Metabolism**      **UP Immunity**

**UP Immune nerve**      **UP Muscle mass**

**NMN  
supplements  
Good**

**Activation of  
genetic longevity  
factors**

# NAD<sup>+</sup> Super Effect

## Eyes Repair & restore vision

NAD<sup>+</sup> can stimulate the regeneration of atrophied capillaries in the eye, which not only reduces lesions but also significantly helps eye diseases.

## Cardiovascular

### Prevent varicose and hardening

Repairing aging blood vessels and regulating miRNA in blood vessels can effectively prevent varicose veins and sclerosis.

## Brain Promote cell repair and regeneration

NAD<sup>+</sup> will effectively activate JNK and inhibit the production of amyloid oligomers in the brain, thereby reducing the chance of suffering from Alzheimer's disease.

## Reverse aging

### Activate cell repair and regeneration

NAD<sup>+</sup> activates the longevity gene Sirtuins and has antioxidant effects, which can protect the skin and reduce skin sensitivity.

## Skeleton

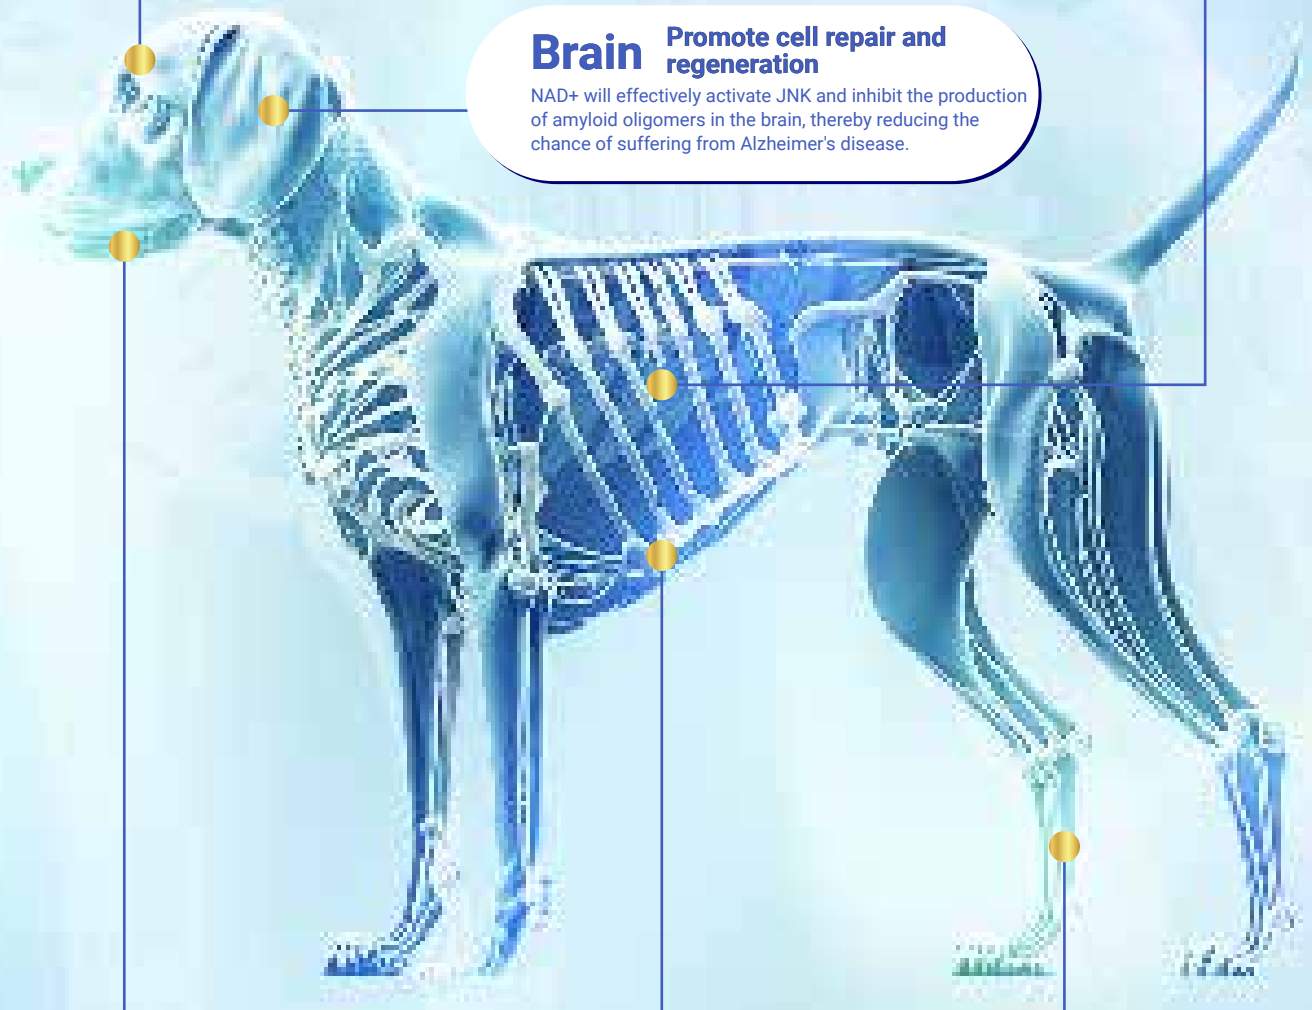

### Repair bones and joints

It has antioxidant effects and prevents bone loss. NAD<sup>+</sup> strengthens bone metabolism and repairs bones and cartilage.

## Weight Control

### Improve metabolism

Enhance metabolism, promote physical activity, improve insulin secretion and blood lipid distribution, and improve body weight.

## Ingredients

[NMN] INMNIS-Nicotinamide mononucleotide  
(domestic), natural water

## Store Method

Avoid direct sunlight and humid environment,  
Please keep it sealed in a cool place to prevent insects and ants from entering.  
Please use as soon as possible after opening  
Please keep it out of the reach of infants and young children

# Effective Intake of NMN

1 day to 7 days

Short  
Term

Mid  
Term

Long  
Term

Patent obtained  
quality assurance

High coordination  
no additives

Animal's Nutritional Supplements

Full of  
energy **Good**
